## Locking Mechanism

To ensure the long-term stability and health of the ecosystem, SDOGE employs a progressive token unlocking plan:

- 2. Locking and Release Schedule: The remaining 60% (12,600,000 SDOGE) will be locked and gradually unlocked over six months:
  - o Each month, 10% of the total supply (2,100,000 SDOGE) will be released.
  - Categories such as founders' tokens and foundation reserves will follow this schedule to maintain stability and encourage long-term commitment.
